

A Concrete Home Is Better Than A Wood Frame Home

We believe that the right home for the our Texas climate is a concrete fortified home... an Ecocast Home!

Concrete homes can withstand damaging winds and flying debris better than wood frame homes.

Concrete is a barrier to rain and flood water, while wood absorbs water and deteriorates.

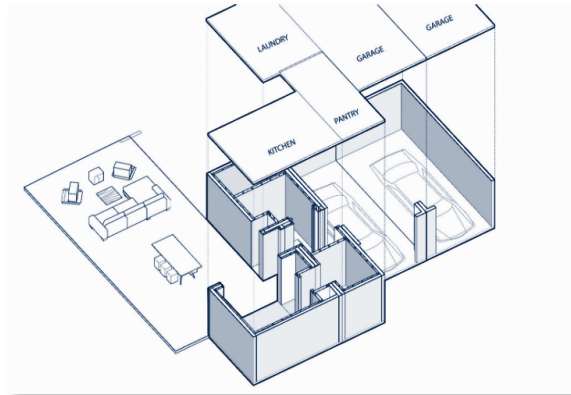

Concrete does not burn, unlike the wood frame in traditional home construction.

Concrete is not organic, so pests such as termites, mold, and dry rot fungi are not problems.

Our Specialty: Dream Home Affordability

“ We design and build attractive precast concrete modular homes in Houston and Southeast Texas that are durable, energy-efficient, and affordable.

**The Game Changer in
New Home Construction**

10 Great Reasons To Choose An Ecocast Home

Our Homes Are:

- 1 Beautiful and a great value that require less time and cost to build while offering many advantages over wood-frame construction
- 2 Completed in less than 60 days
- 3 Built with our precast steel-reinforced concrete panels
- 4 Customizable to any exterior style and include options for interior finishes
- 5 Disaster resistant
- 6 Cooler in the summer and warmer in the winter, which results in monthly energy savings and permits installation of smaller heating and cooling equipment
- 7 Durable for the decades
- 8 Quiet within and buffered from external noises
- 9 Constructed with locally sourced natural and recyclable materials
- 10 TDHCA Code compliant that meets or exceeds the standards required by the Texas Department of Housing

Our Services

Your Home Builder

Contact us to build multi-unit homes and/or multiple single family homes on your property. We offer:

- choices of single and 2-story floor plans
- from 420sf to 2600+sf
- with 1-4+ bedrooms and 1-3+ baths
- and exterior and interior style options

Your Construction Partner

We can be your building partner by supplying the concrete "shell" for multiple homes in your development to speed your construction and lower costs.

We have:

- the ability to adapt your floor plans for use with our concrete forms
- finish specifications for various styles
- the adaptability to create innovative partnerships

We Are Ready When You Are!
